EDUCATION

University of Michigan Ann Arbor, MI
B.S. Computer Science *Aug 2021 – May 2025*

EXPERIENCE

KNAPP March 2026 – Present
Software Systems Engineer I *Kennesaw, GA*

- Developed **C++** application logic and **XML**-based Logistix workflows for automated warehouse systems
- Diagnosed production software failures via **Linux** log and trace analysis, **Oracle SQL**, and C++ code analysis
- Managed 500+ integration test cases, software/configuration changes, and defects through Azure DevOps
- Built **Bash**, **Python**, and Oracle SQL scripts for automated test workloads and performance diagnostics
- Supported Walmart's NGL warehouse expansion, troubleshooting distributed warehouse control components
- Performed high-volume testing validating software stability at 700+ tote and 1,400+ carton-routing messages/hour

PROJECTS

Video Looper App August 2025 – Present
React, Tailwind, Express, AWS, Supabase, Railway

- Built a custom React media player with keyboard navigation, timeline scrubbing, and sub-second buffering
- Integrated AWS S3 and CloudFront for scalable media storage and CDN-backed asset delivery
- Implemented Supabase authentication and AWS SES transactional emails, deploying services on Railway

Cost of Living Explorer June 2025
Python, React, Flask/Express, PostgreSQL

- Developed a Python web scraper to collect and structure publicly available cost-of-living pricing data
- Built a REST API and React interface to retrieve and compare cost-of-living data across multiple cities

Human-Centered SW Capstone Project January 2025 – May 2025
Flask, MySQL, React

- Developed a full-stack journaling and habit-tracking application using React, Flask, and MySQL
- Conducted structured usability testing with 20+ participants that improved accessibility and user satisfaction
- Collaborated in a 4-member team through iterative development, delivering three functional prototypes

SKILLS

Languages: C++, C, Python, JavaScript/TypeScript, SQL, PL/SQL
Frameworks/Libraries: React, Node.js, Express, Flask, TailwindCSS
Databases/Cloud: PostgreSQL, MySQL, Oracle, Supabase, AWS
Tools: Git, Linux, Azure DevOps
